

SolarRay System Warranty

When you buy a complete system from us, and we perform the installation, we offer a complete six month warranty on all workmanship and materials. This warranty is in addition to any manufacturer's equipment warranties. If the power system isn't working right, we will send a service technician to investigate. If the problem is due to our work, design, or equipment, we will repair or replace it at our cost. This warranty does not cover shipping or travel costs. If we need to upgrade equipment, we will charge only the difference in cost for the upgrade. This warranty does not cover lightning, fire, misuse, or other damage beyond our control. Other equipment not purchased through SolarRay, Inc. is not covered, nor are problems related to the other equipment. SolarRay, Inc., its employees, and/or subcontractors are not responsible for consequential, incidental, contingent, or special damages related to a power problem, misuse, or loss of power.
